

Hydraulic Cargo Load Bars

- Lightweight - Only 8.8 lbs
- Will not freeze up
- No trailer damage
- FDA approved Bio-Safe fluid

It's as easy as 1,2,3

1. Adjust to desired length

Extends from 83" to 114" and can be used vertically or horizontally

2. Pump handle to secure

The internal hydraulic system is pressure limited and can not be "over pumped" and cause trailer damage

3. Push button to release

One push of the button and the bar is safely released, no more pinched fingers.

Add extra securing area with optional hoops, they measure 24" x 75"
